## Notes

- All times are in local time, IE BST applied where appropriate
- Do not rely on times for lock operations at Liverpool Marina, they are indicative. Refer to the marina operator for actual lock times
- Lock times are estimated for a vessel of 2m draft
- Do not rely on tidal data published here for navigation
- Tide times and heights are derived from wxTides and although the calculations use freely available official sources they will not be identical to the Hydrographic Office official data. In practice the source we use is out by a small amount, usually no more than a few minutes and to a resolution of 0.1m.

**The club provides this information in good faith and for information / guidance ONLY. It should not be used as a substitute for official sources.**
